

MANJUNATH KALBURGI

AI Product Manager | Technical AI Product Leader

Bangalore, India | manjunathkalburgi85@gmail.com | +91 9986407307 | linkedin.com/in/kalburgimanjunath | github.com/kalburgimanjunath

PROFILE

Software engineering leader and hands-on AI product builder with 15+ years of experience taking products from concept to production, including end-to-end ownership of LLM-powered features: customer discovery, roadmap and PRD definition, prompt/agent design, architecture, build, and delivery. Track record spans Physical Security, Clinical Trials, Education, E-commerce, Insurance, and Enterprise SaaS. Independently shipped an AI learning agent (OpenAI GPT-4) now serving 1,000 students with 10,000+ personalized lessons generated.

CORE SKILLS

Product	Product Strategy & Roadmapping, PRD/User Stories, Customer Discovery, OKRs & Sprint Metrics, Backlog Grooming, Go-to-Market, Competitive Analysis, Stakeholder Management, Jira, Confluence
AI / LLM	OpenAI GPT-4, Google Gemini, Prompt Engineering, Model Evaluation, Agentic Workflows, LangChain.js, Claude Code, AI Observability
Engineering	React.js, Next.js, Node.js, TypeScript, GraphQL, Microservices, Micro Frontends, GCP, Azure DevOps, AWS S3

PROFESSIONAL EXPERIENCE

08/2025 – Present Bangalore, India	Senior Staff Engineer — Altimetrik at Wex - Build UI components in React, TypeScript, Python and C#.NET, integrating AI tools (NotebookLM, Claude Code, Relevance Lab, Make.com) - Drove API transformation from monolith to microservices (DDD, GraphQL, Kafka), cutting integration time by 10% - Reduced prototyping time by 20% for client MVPs using AI-assisted automation
08/2024 – 01/2025 Bangalore, India	Frontend Developer, Level 3 — Aries Technology Solutions (Express.com) - Architected a React/Next.js/Redux component library standardizing UI across 15+ applications - Automated AEM-to-Cloudinary asset migration, cutting operational overhead by 40% - Achieved 100% test coverage with React Testing Library, lifting team efficiency by 30%
03/2024 – 06/2024 Bangalore, India	React Lead / Frontend Architect — SWANFORLIFE - Designed a modular React/Redux front-end framework for scalable development - Built AI agents converting Figma designs into React components, cutting manual effort by 50%
10/2022 – 10/2023 Bangalore, India	Technical Architect — Salesforce Core, LWC Platform - Built a component library as Lightning Design System (LWC) components - Engineered AI agents to convert Figma designs into React components (~50% manual effort) - Cut UI development time by 30% via Storybook-driven development; raised WCAG 2.1 AA compliance
08/2021 – 08/2022 Hubli, India	Software Consultant — Sensvio (Education) - Conceived, built and shipped an AI learning agent end-to-end (OpenAI GPT-4), converting voice input into personalized lessons for children - Took the product from concept to production in 7 months; now serving 1,000 students, 10,000+ lessons generated - Improved page load performance by 35% across responsive React/React Native applications
11/2020 – 08/2021 Bangalore, India	Technical Architect — Honeywell Technology Solutions Lab - Architected cloud-based security management platforms (React, Redux, Node.js, Micro Frontends) - Lifted team efficiency by 25%; achieved 98% UI test coverage (Jest, Karma)
11/2019 – 08/2020 Bangalore, India	Technical Lead — Pure Software, Client: Oracle (Healthcare) - Built UI components for the Clinical Trials platform supporting COVID-19 research - Migrated legacy system from KnockoutJS to React/Redux/Oracle DB, raising release stability by 30%
10/2013 – 09/2019	Tech Lead — Honeywell Technology Solutions Lab

Bangalore, India

- Owned cloud-based security platforms end-to-end (Maxpro Cloud, MPC, RAMS, Eagle, BMS, ISOM)
- Migrated stacks from KnockoutJS to Angular 4/6 and React; enabled CI/CD with Git and Jenkins

09/2011 – 09/2013
Bangalore, India

Junior Programmer — 3M India

- Directed product management for a global B2B/B2C website end-to-end — roadmap, launch, and post-launch iteration across international markets (3mindia.com, post-it.com, scotchbrite.com)

08/2010 – 08/2011
Bangalore, India

Software Engineer / Trainee — Globals Inc

- Developed web applications for E-commerce and Healthcare clients using PHP, Symfony, MySQL, WordPress

EDUCATION

09/2007 – 07/2010

B.E., Computer Science & Engineering — Smt. Kamala & Venkama M. Agadi College of Engineering & Technology, Laxmeshwar, India

07/2003 – 07/2006

Diploma, Computer Science — KLE's Polytechnic College, Hubli, India

CERTIFICATIONS

Six Sigma Green Belt (DFSS Core) • Scrum Fundamentals Certified (SFC™) • Salesforce Certified Platform Developer I (Intro) • Enterprise Design Thinking Co-Creator (IBM) • AI Agents Bootcamp: LangChain, RAG & LLMs (2025) • Cloudinary Certified Media Developer Master

KEY ACHIEVEMENTS

3x Star Technical Award, Honeywell Technology Solutions • 3 patents filed, Honeywell Technology Solutions Lab • Trained in CMMI, Six Sigma & Honeywell Operating System (HOS)

Bangalore, 17/07/2026
